PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science (Data Science) student with strong programming, software development, and analytical problem-solving skills. Experienced in developing AI-driven applications, backend systems, and full-stack solutions. Skilled in Python, Java, and modern web technologies with knowledge of Software Development Life Cycle (SDLC), REST APIs, and scalable database systems. Passionate about building high-performance applications and contributing to hybrid cloud and AI-driven solutions.

TECHNICAL SKILLS

Programming Languages
Python, Java, C, JavaScript, Node.js
Data Structures & Algorithms
Arrays, Linked Lists, Stacks, Queues, Trees, Hashing, Searching Algorithms, Sorting Algorithms, Recursion
Software Development
Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Debugging, Code Optimization, REST API Development
AI / Machine Learning
Deep Learning, CNN, U-Net, NLP, Variational Quantum Circuits (VQC)
Frameworks & Libraries
Django, ReactJS, Express.js
Databases
MySQL, MongoDB
Web Technologies
HTML, CSS, JavaScript, REST APIs
Tools & Platforms
Git, GitHub, VS Code
Data Tools
Pandas, NumPy, Power BI, Data Visualization

PROJECTS

Quantum-Enhanced Neural Architecture for Brain MRI Segmentation | 2025
• Developed a hybrid deep learning architecture integrating **U-Net with Variational Quantum Circuits** for improved brain tumor segmentation.
• Processed **3D MRI NIfTI datasets** for accurate medical image analysis.
• Implemented Dice-based loss functions and optimization strategies to improve segmentation accuracy.
• Built Python pipelines for preprocessing, training, and evaluation of medical imaging models.

AI/ML Powered College Enquiry Chatbot | 2023 – 2024
• Developed an intelligent chatbot system using **Django and Python** to automate responses to college enquiries.
• Integrated **Google Gemini API** and NLP techniques for query classification and response generation.
• Designed scalable **MongoDB database architecture** for storing user interactions.
• Implemented REST APIs and built a responsive frontend using HTML, CSS, and JavaScript.

Task Management REST API

- Developed a backend task management system using Node.js and Express.js.
- Implemented CRUD REST APIs for task creation, updating, and deletion.
- Integrated MongoDB database for efficient task storage.
- Implemented authentication and structured API routes for scalable backend architecture.

EXPERIENCE

Web Developer Intern

CODTECH IT Solutions | June 2024 – Aug 2024

- Developed scalable web applications using modern frontend and backend technologies.
- Designed database schemas and optimized queries for efficient data storage.
- Implemented REST API endpoints and improved application performance.
- Collaborated with development teams following structured development workflows.

EDUCATION

B.Tech – Computer Science and Engineering (Data Science)

Ace Engineering College, Hyderabad

2022 – 2026

CGPA: **8.9 / 10**

Intermediate Education

MJPTBCWJRC, Gajwel

Score: **92.6%**

Secondary Education

ZPHS, Digwal

GPA: **10 / 10**

CERTIFICATIONS

- Cisco Networking Basics
- Wipro Full Stack Developer Certification
- Cisco Python Essentials 1 & 2
- Cisco CCNA: Introduction to Networks
- Pearson MePro Level 9 – Proficient Badge

CODING PROFILES

GitHub: https://github.com/parthugari-shivakoti

LeetCode: https://leetcode.com/u/shivakoti214/

ADDITIONAL SKILLS

- Analytical Problem Solving
- Software Design & Development
- Team Collaboration and Communication
- Agile Development Practices
